

Dear parents
Greetings!

Hope you are safe and doing well.

Modern school Noida is always a step ahead in being kind, generous and holding a sense of social responsibility for every child of the school **as small efforts make a big difference**. In this endeavour we wished to extend a kind support to the students who lost their earning parents during pandemic by offering them fee concession for the academic session 2021-22.

You would be pleased to know that with the sense of social responsibility, Modern school management has finally extended support by providing fee concession to 7 students of our school so that the continuation of the quality education of those children is ensured, leading to their bright future.

We would appreciate extended support by the parents, NGOs and institutions who are willing to provide financial assistance or any other kind of assistance to the students such as books, stationeries uniform etc., which will surely help them in bringing smile on their faces and continuation of their academic career. Any information regarding such kind of support to be communicated to us on school email ID "modernschoolnoida@outlook.com". We would always be appreciative for such kind of generosity.

Looking forward to continued support and positivity as we strive to do the best in this challenging situations.

" STAY SAFE AND STAY HEALTHY "

Regards
Principal
